

CE for Veterinarians/Technicians

“A Discussion of Lower Airway Disease in Dogs and Cats”

By Leslie Kuczynski, VMD, DACVIM

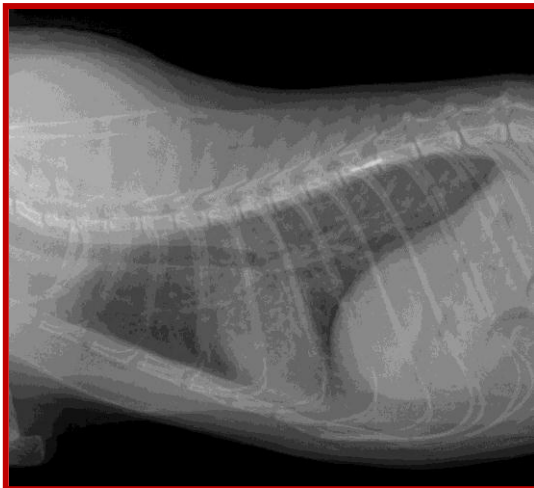

2 RACE Credits

When: Thursday, October 9, 2014

Where: Season’s 52, King of Prussia, PA

Registration & Dinner: Begin at 6:30 p.m.

Lecture: Begin at 7:00 p.m.

This lecture will be an overview of lower airway disease in dogs and cats, with focus on chronic bronchitis in dogs and chronic bronchitis and asthma in cats. Common presenting complaints, clinical signs, diagnostic testing, treatment options and long term management will be covered incorporating current literature topics. Case examples will also be discussed.
