

METROPOLITAN VETERINARY ASSOCIATES

WELCOMES 3 NEW DOCTORS TO OUR FAMILY

Metropolitan Veterinary Associates is excited to welcome dentistry back to our hospital as well as add to our neurology and surgery teams!

DENTISTRY

After a thorough examination our veterinary dentist will discuss treatment options and recommendations. Services performed by our veterinary dental surgeon, Corinne Durand, DVM, include dental radiographs and cleanings, periodontics, endodontics, orthodontics, restorative dentistry, crowns, general oral surgery, jaw fracture repair, and oral neoplasia therapy.

**Appointments and surgery available
4 days a week and 2 Saturdays
a month.**

Dental Services

- Dental radiographs, cleanings
- Periodontics
- Endodontics
- Orthodontics
- Restorative dentistry
- General oral surgery
- Jaw fracture repair
- Oral neoplasia therapy

Corinne Durand
DVM (Dentistry)

Dr. Corinne Durand graduated from Cornell University in 2004 with a degree in Biology – Animal Physiology. She went on to pursue her veterinary degree at St. George's University, and completed a rotating internship in small animal medicine and surgery at the Veterinary Medical Center of Long Island. With a passion for dentistry and oral surgery, she began her residency program in Veterinary Dentistry at the Veterinary Medical Center of Long Island in 2011, and completed that residency in 2015. Dr. Durand will be starting at Metropolitan Veterinary Associates in August 2015.

HOSPITAL ADMINISTRATOR

Stacey Connell

NEUROLOGY

In addition to performing neurological examinations, neurologists also utilize advanced diagnostic techniques using Myelography, Computed tomography (CT), Magnetic Resonance Imaging (MRI), Cerebrospinal fluid (CSF) sampling and analysis, muscle and nerve biopsy, BAER testing to evaluate hearing, and electric nerve impulse tests to diagnose conditions. These procedures can identify the problem and guide the neurologist towards an appropriate treatment plan for your pet.

Dr. Melissa Logan does a wide range of neurosurgery; her professional interests include spinal cord disorders/injury, cerebrovascular disease, as well as nerve and muscle disorders.

Neurology Diagnostic Services

- Myelography
- Computed Tomography (CT)
- Magnetic Resonance Imaging (MRI)
- Cerebrospinal fluid (CSF) sampling and analysis
- Muscle biopsy
- Nerve biopsy
- BAER testing
- Electric nerve impulse testing

Appointments and procedures
available 6 days a week.

SAVE THE DATE

Stay tuned for more information
on our CE lecture by Dr. Logan on
October 22.

Melissa Logan
Ph.D., DVM, DACVIM
(Neurology)

Dr. Melissa Logan is a board-certified neurologist and neurosurgeon who will be joining Metropolitan in August 2015. She previously practiced for four years at a specialty hospital in NJ. Dr. Logan graduated from Purdue University School of Veterinary Medicine in 2006. She remained at Purdue to complete a rotating internship in small animal medicine and surgery, as well as her neurology residency. Prior to her veterinary studies, she earned a Ph.D. in neurophysiology at Purdue, where she studied the mechanisms and treatment of acute spinal cord injury.

Metro-Vet.com

WELCOME

Dr. Rebecca Wolf, VMD, DACVS

**Joining the MVA Surgery Team
October 2015**

Dr. Wolf will bring our surgery specialists to seven, totaling over 125 years of combined experience in orthopedic and soft tissue surgeries. Possessing the instruction, expertise, and equipment to perform the most demanding procedures, a residency trained surgeon can help the family veterinarian provide the best possible care to the patient.

With the addition of Dr. Wolf, Surgery appointments will be available Monday – Saturday.

Rebecca Wolf
VMD, DACVS
(Surgery)

SURGEONS
A. Jon Nannos, DVM, and
Timothy M. Schwab, VMD, DACVS

Dr. Wolf graduated in 2006 from the University Of Pennsylvania School Of Veterinary Medicine. She completed a rotating internship at Garden State Veterinary Specialists in New Jersey, followed by a surgical internship at Gulf Coast Veterinary Surgery in Houston, Texas. Dr. Wolf returned to Garden State Veterinary Specialists for her surgical residency, which she completed in 2011, and is currently practicing at a Specialty hospital in Chicago, IL until October 2015. She is a small animal diplomate of the American College of Veterinary Surgeons, and is proficient in soft tissue, orthopedic, and select neurologic surgeries.

CONTINUING EDUCATION CLASSES

CALCULATIONS, CONVERSIONS, AND CRI'S: TAKING THE MYSTERY OUT OF MEDICAL MATHEMATICS FOR VETERINARY TECHNICIANS

BY: Denise E. Wyse, CVT

WHEN: Tuesday, August 27, 2015

TIME: Registration: 6:00pm, Lecture 6:30pm – 8:30pm

**WHERE: METROPOLITAN VETERINARY ASSOCIATES
2626 Van Buren Avenue, Valley Forge, PA 19482**

RSVP: events@metro-vet.com or 610-666-1050

CO-SPONSOR: Pennsylvania Veterinary Medical Association

2 PVMA Credits, Space is limited and RSVP is required

This 2-hour course is designed to help veterinary technicians understand and be able to perform basic to advanced calculations they may come across in their day-to-day nursing activities. Formulas and calculations will be explained both in theory, and with demonstrated examples. Participants will have the opportunity to ask questions as each type of calculation is explained, and will be provided with formulas and practice calculations to take with them.

THE LEADERSHIP WORKSHOP WITH BRENDA TASSAVA, CVPM, CVJ

WHEN: Tuesday, August 11, 2015

TIME: 10:00am – 4:00pm

**WHERE: CHADWICK'S RESTAURANT
2750 Egypt Road, Audubon, PA 19403**

**REGISTRATION: [www.halowtassava.com/event/
the-leadership-workshop-for-veterinary-professionals/](http://www.halowtassava.com/event/the-leadership-workshop-for-veterinary-professionals/)**

HOSTED BY: Metropolitan Veterinary Associates

SPONSORED BY: Elanco and VetSuccess

Strengthen your skills in an interactive leadership workshop, designed to spark the creative thought process, while learning how to engage and motivate your veterinary staff members today! Brenda Tassava's fun, interactive leadership workshop focuses not only on how you can become a better leader to inspire your team, but also the actions you can take NOW to get your team involved in taking preventative care to a new level in your practice. Using a sample Preventative Care Snapshot, work will be done in small groups to create new veterinary service ideas, with every attendee going back to their practice with multiple action plans that can be used right away to increase client visits, while improving overall patient care.

Hosted by Metropolitan Veterinary Associates, and sponsored by Elanco and VetSuccess, this workshop has limited seats available at no charge to attendees. Lunch will be provided. Veterinarians, Practice Managers, Supervisors, and Team Leaders are all welcome to attend!

PET LOSS SUPPORT GROUP

Many of our employees understand the depth of loss experienced when a beloved four-legged family member passes. For that reason, Metropolitan provides a pet loss support group to help grieving owners in need. Our support group is designed to provide grieving pet parents with a safe, confidential environment to share their feelings with others who have experienced pet loss.

Meetings are held once a month onsite at Metropolitan and are free of charge for your clients (all family members are invited to attend). The group is led by Dr. Cari Thomson and co-led by psychiatrist Dr. Carol Tavani.

Please contact us at 610.666.1050 if you would like to have Pet Loss Support Group brochures mailed to your office. Clients are able to visit our website to find meeting dates and times, general information and recommendations on obtaining help outside of the group setting.

Pet Loss Support Group meetings are held the first Thursday evening of each month for your clients (and are free of charge).
